STRONGPOINT AUTOMATION

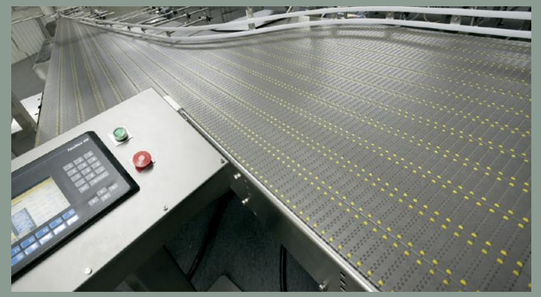
conveyor solutions

STRONGPOINT IS COMMITTED TO ACHIEVING MARKET LEADERSHIP BY UNDERSTANDING OUR CUSTOMERS' NEEDS FOR INNOVATIVE YET COST-EFFECTIVE ROBOTIC AND CONVEYOR SOLUTIONS WHILE OFFERING GREATER VALUE AND SERVICE THAN THE COMPETITION.



StrongPoint Automation

FANUC Robotics AUTHORIZED INTEGRATOR

WE COMBINE THE WORLD'S MOST RELIABLE ROBOTS, SOFTWARE AND CONTROLS WITH OUR YEARS OF INDUSTRY EXPERIENCE TO HELP MANUFACTURERS REDUCE COSTS, IMPROVE QUALITY, AND INCREASE THEIR COMPETITIVE POSITION IN THE GLOBAL MARKET.

StrongPoint Automation provides a vast array of systems from simple transport conveyors to full ASRS systems. Dependable standard designs coupled with strong custom solutions ensure a cost effective implementation.

Table Top and Mat Top • Bakery & Confectionary Processing • Servo Indexing Conveyors • Single Filers & Product Laners • Side Grip Elevators & Lowerators • Case & Tote Conveyors • Spiral Case Elevators & Declines • Sortation Systems

Automatic Storage & Retrieval Systems • Product Metering, Scanning and Diagnostics • Full & Empty Pallet Conveyors • Slip & Tier Sheet Systems • Pallet Magazines & Dispensers

INNOVATIVE SOLUTIONS

StrongPoint Automation combines years of industry experience, passion and ingenuity to offer the most reliable, innovative and cost effective solutions to our customers. From conceptual design through to complete factory acceptance testing, StrongPoint consistently delivers standard and custom solutions within a broad range of applications and industries. All StrongPoint solutions are fully assembled and tested prior to shipment to ensure system parameters are achieved and customer satisfaction is exceeded.

From process material handling to end of line palletizing, StrongPoint can provide your business with a competitive advantage through automation. Visit our Solutions portfolio online at www.strongpointautomation.com to find the answer to your plant or process needs.

CONTROLS AND AUTOMATION

StrongPoint offers the highest quality system engineering, programming and on-site services in the automation industry. Our staff of qualified technicians and programmers specialize in developing and commissioning industrial control systems on a wide variety of platforms and operator interfaces.

As an authorized FANUC integrator, StrongPoint can support all of your robotic programming, troubleshooting and training needs. Decades of industry knowledge and experience go into each one of our solutions to ensure that our customers are provided with cost-effective and innovative answers to their automation challenges.

INSTALLATIONS AND COMMISSIONING

Every StrongPoint system is fully assembled and tested at our facility prior to shipment. In addition to our commitment to continued product quality, StrongPoint also offers a full range of installation and commissioning services at our customer's facilities.

From installation supervision to full system installs and operator training, we are uniquely equipped to support our customers to ensure a short installation cycle and maximize your return on investment.

SYSTEM AUDITS

If you have an existing installation or system that fails to meet your expectations, StrongPoint can provide support in an effort to maximize your existing capital investments.

By leveraging decades of combined industry experience we can perform an audit of your installed system and provide guidance and recommendations for improvement.
