

# A STRONG ADVANTAGE

## KNOWLEDGE AND EXPERIENCE:

StrongPoint engineers and programmers have extensive career experience through hundreds of robotic, conveyor and material handling projects.

## TRAINING:

As part of every project, StrongPoint can offer operator and maintenance training. Projects are developed and built at our location, so your staff can work with your project prior to being at your facility. This training allows for a building of capability and comfort prior to facing production demands.

## SERVICE:

StrongPoint's mechanical and electrical staff are available to support projects through our service contracts and call-in information requests.

**TIME IS YOUR MONEY**

# THE STRONGPOINT ADVANTAGE

## INCREASE PRODUCTIVITY

StrongPoint will custom create solutions for your process bottlenecks. By utilizing automated handling for case packing, palletizing, pallet movement or conveyor systems your through put can be dramatically increased.

## REDUCE LABOUR

StrongPoint will lower your labour costs by creating custom solution for your high labour activities. By reducing labour through automation, handling or movement, including light assembly, you gain without giving up any production.

## INCREASE SAFETY

Using StrongPoint Automation to review your "At Risk" activities such as repeat motion, harsh environments, heavy or high lifts, you reduce your exposure to injuries without losing production or productivity.

AUTOMATION

## FULLY AUTOMATED SOLUTIONS

StrongPoint's robotic systems will provide comprehensive automation solutions for a wide variety of industries. We work closely with our customers to provide practical solutions that will give them the most cost effective, efficient, and reliable results imaginable. As industry leaders in robotics and automation, our reputation is built on superior engineering, excellent customer service, and quality.

StrongPoint Automation is a market leader in the design, development and manufacturing of world-class robotic and conveyor systems. We combine years of industry experience, knowledge and ingenuity to offer the most reliable, innovative and cost effective results for our customers.

## MATERIAL HANDLING SOLUTIONS

A StrongPoint engineered conveyor system will improve your plant's productivity and efficiency. We offer a wide range of custom, flexible solutions for the packaging and manufacturing industries. StrongPoint's conveying systems are of the highest quality and tested to perform even in the harshest environments. Designed for complete flexibility, and simple integration into your plant, you can rely on StrongPoint conveyors.

From conceptual design through to complete factory acceptance testing, StrongPoint delivers quality standard and custom solutions within a broad range of applications and industries. All systems are fully assembled and tested prior to shipment to ensure parameters are achieved and customer satisfaction is exceeded.

PACKAGING | MATERIAL HANDLING | DEPALLETIZING | PALLETIZING | FOOD & BEVERAGE | PHARMACEUTICALS | COATINGS | LIGHT ASSEMBLY | HEALTHCARE | CONSUMER PRODUCTS | EXTREME ENVIRONMENTS

MASS FLOW | SINGLE FILERS | MAT TOP | TABLE TOP | CASE | LOWERATORS | ELEVATORS | PALLET | MAGAZINES | BAKERY & CONFECTIONERY | TRAY DENESTERS | AUTOMATED SMART CARTS®
